Just a quick note to let you know that I do not approve of the gas pipeline. If our energy needs are so high, it seems simple that we are using just too much energy. Instead of trying to make more, usage should be regulated. People and companies are very wasteful of their electricity. They don't mind paying a premium for not having themselves inconvenienced. Penalize them.

The pipeline is dangerous, a hazard to the environment, and I don't support it.

Sincerely,

Lori Hilton
